

eatsleepdrink

Regional Operations Managers

Basic salary up to £65k + 100% bonus scheme + car

Opportunities Nationwide

These are exciting times for Whitbread's Hotel and Restaurants Division - a team who eat, sleep and drink hospitality. Bucking the trend in a downbeat market, we have delivered exceptional results for Premier Inn and a very impressive performance across our Beefeater, Brewers Fayre, Taybarns and Table Table restaurants.

Your challenge will be to build on this success in support of the Division's highly ambitious growth plans - ensuring the business thrives in the face of increasing competition. Taking total responsibility for your region (up to 20 joint sites), you will drive performance by strengthening our sales culture and guest obsession and developing high calibre talent among your General Managers. The role is about focusing on the big picture rather than tackling the detail - you will need to embed best practice on a regional basis, while supporting individual managers as required.

The potential in this position is huge. To realise that potential, it is essential that you have similar experience within a large, multi-site organisation - possibly in the hospitality, leisure or retail sectors. A track record of leading General Managers and driving continuous improvement is a must. You also need a proven ability to turn strategy into action.
